User Guide

Getting Started

- Create an account through the sign■up page.

- Verify your email address to activate your account.

- Log in to access the main dashboard.

Configuring Authentication Settings

- Navigate to **Settings** → **Security**.

- Choose between API Key mode and OAuth mode.

- Generate new authentication keys if required.

- Enable IP restrictions for enhanced security.

Using the Platform

Use the left navigation panel to access modules such as Workflows, Reports, and Integrations. Each module includes tooltips and contextual help icons that explain key actions and settings.
